

False Positive Analysis - Energy and Composition

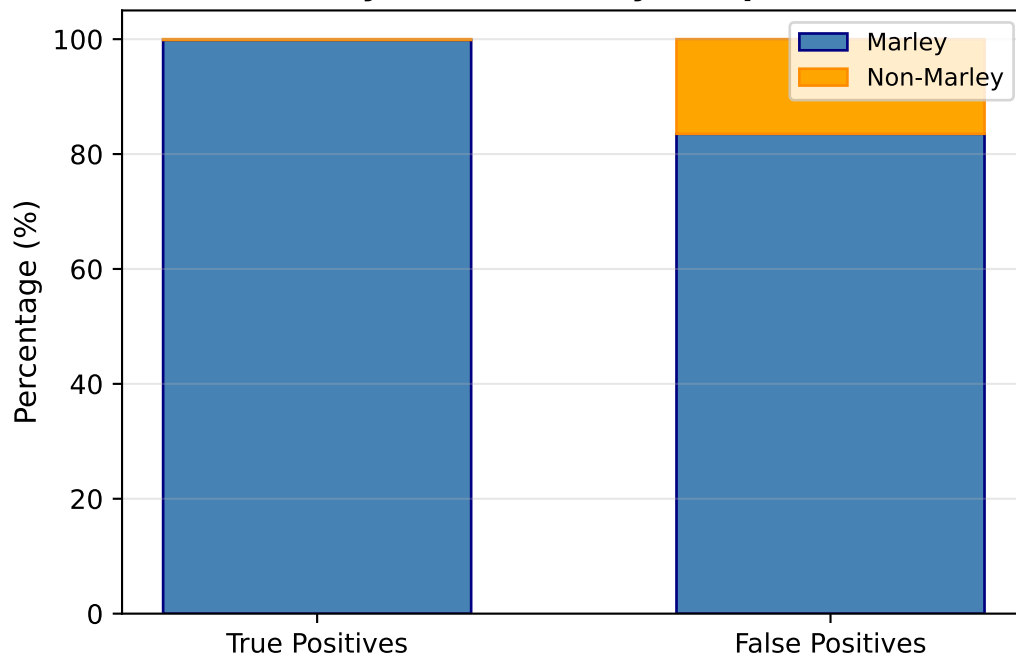

Cluster Energy: TP vs FP

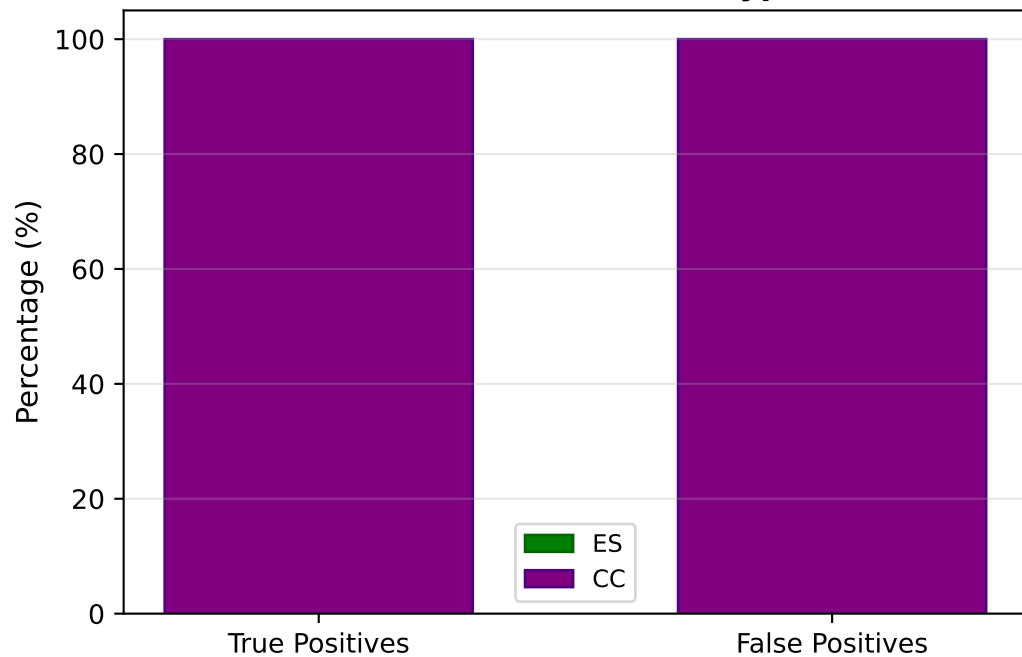

Parent Particle Energy: TP vs FP

Marley vs Non-Marley Composition

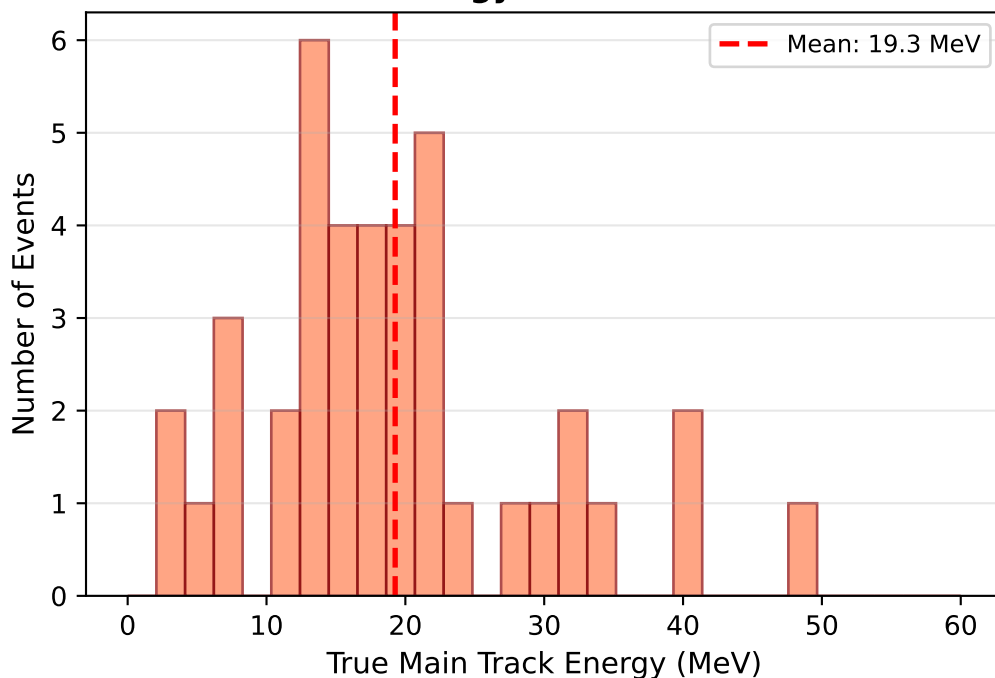

ES vs CC Interaction Type

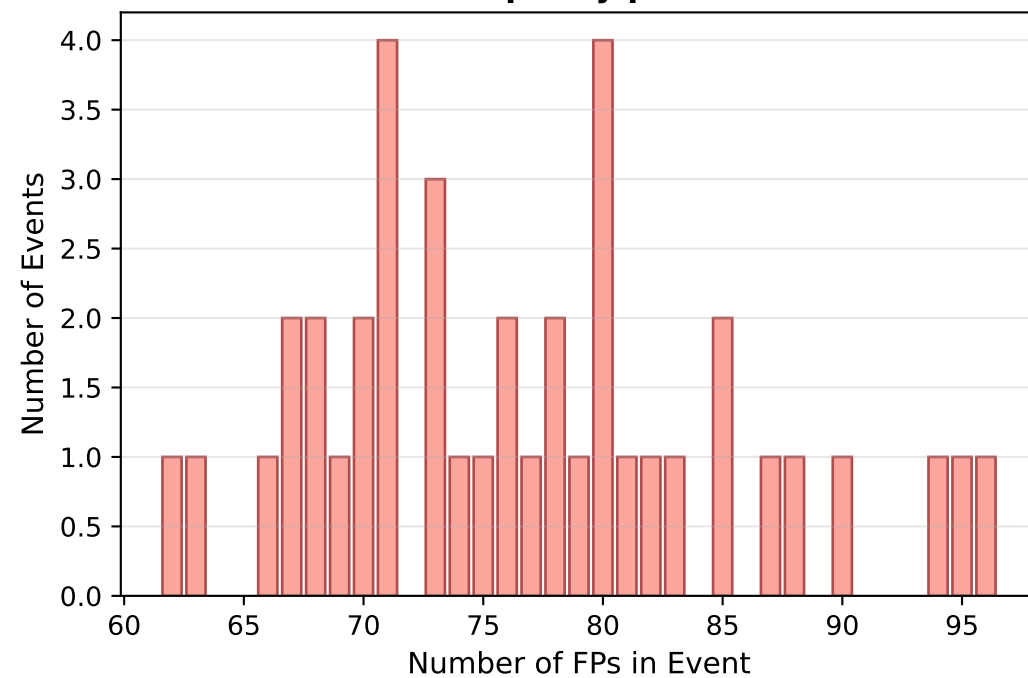

False Positive Analysis - Event-Level Properties

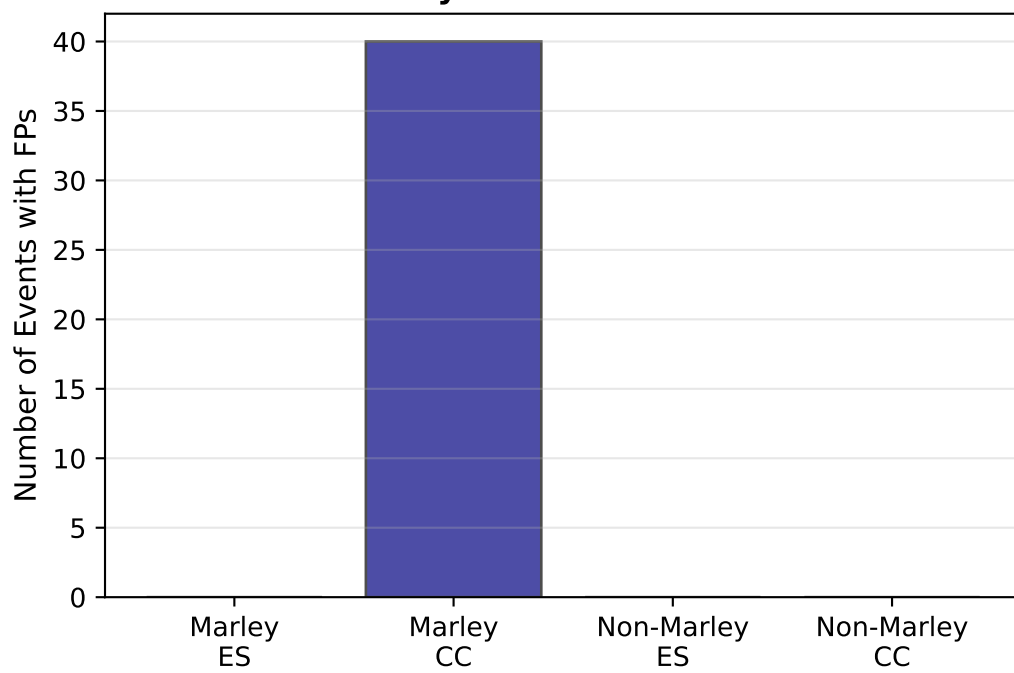

True MT Energy in Events with FPs

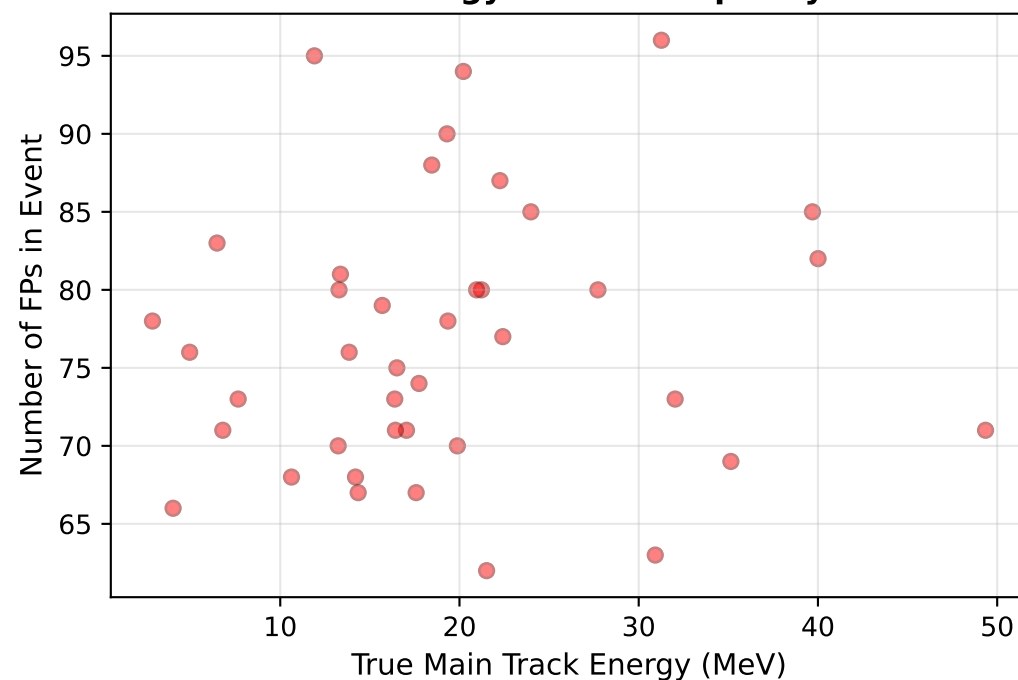

FP Multiplicity per Event

FP Events by Generator & Interaction

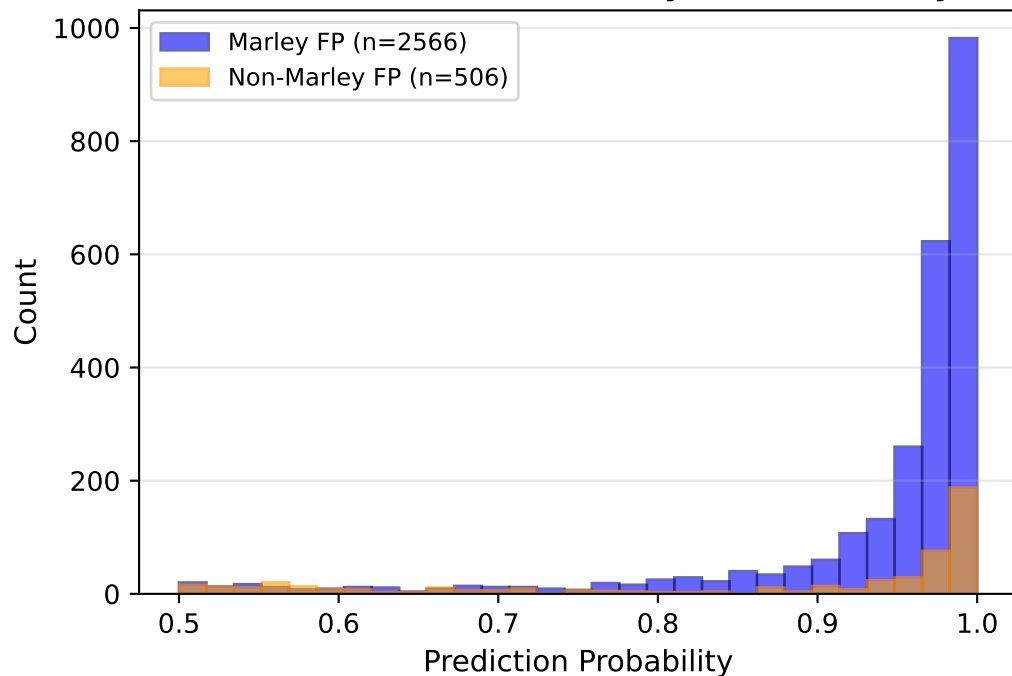

MT Energy vs FP Multiplicity

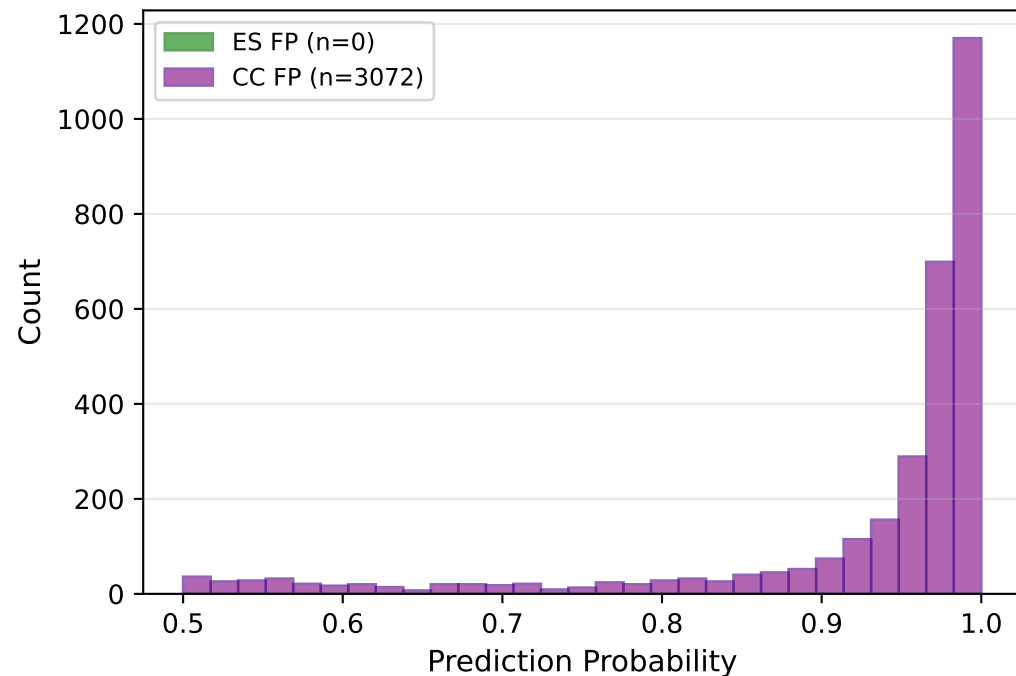

False Positive Analysis - Detailed Characteristics

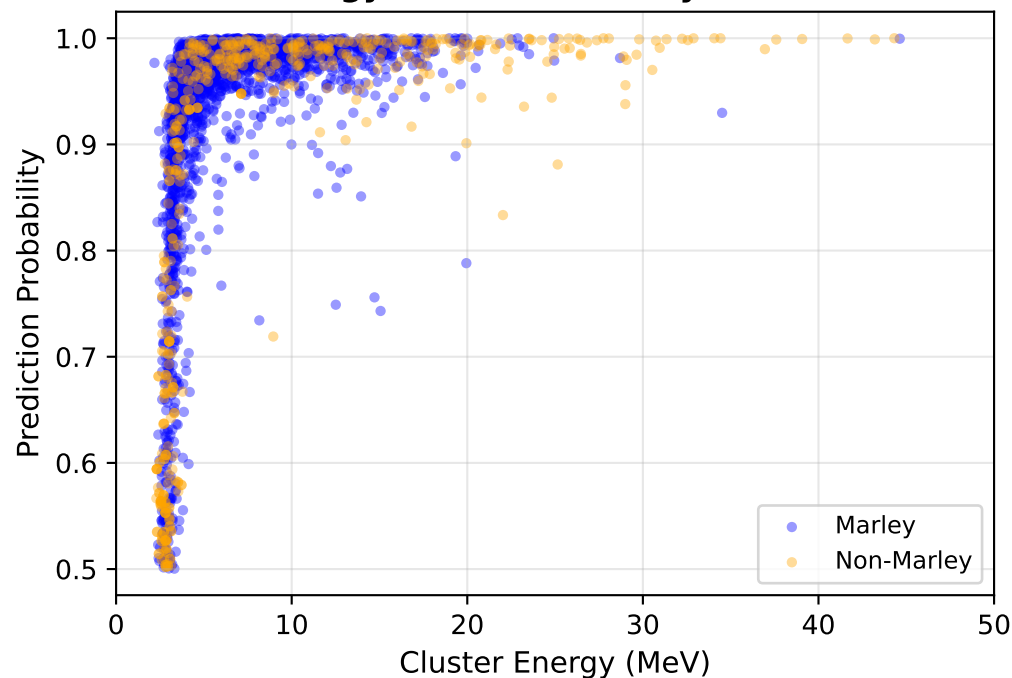

FP Prediction Prob: Marley vs Non-Marley

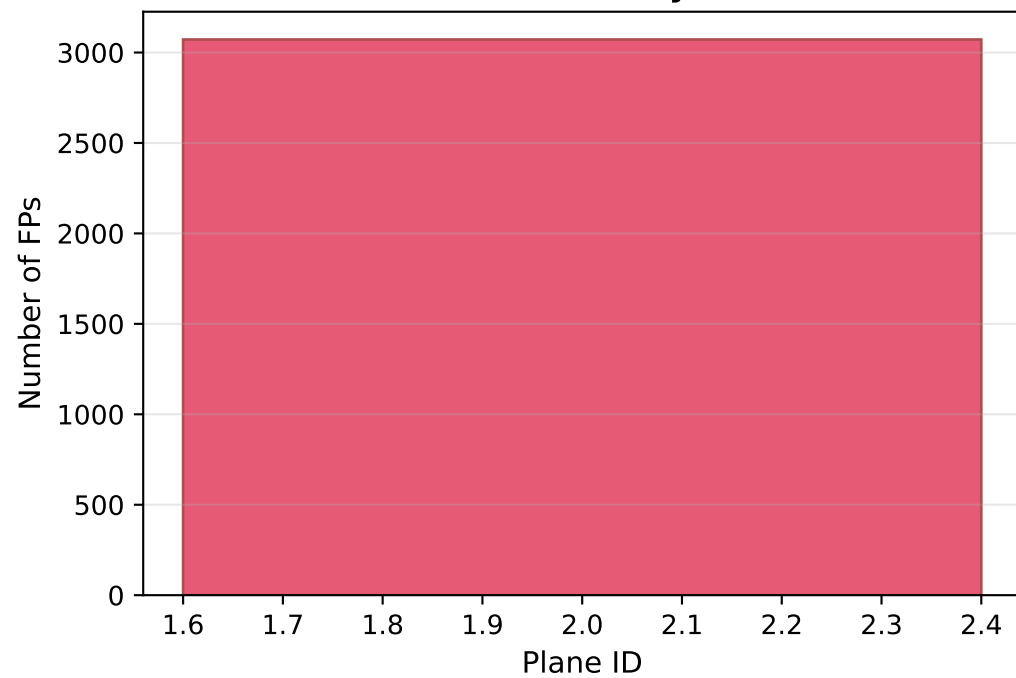

FP Prediction Prob: ES vs CC

FP Energy vs Prediction (by Generator)

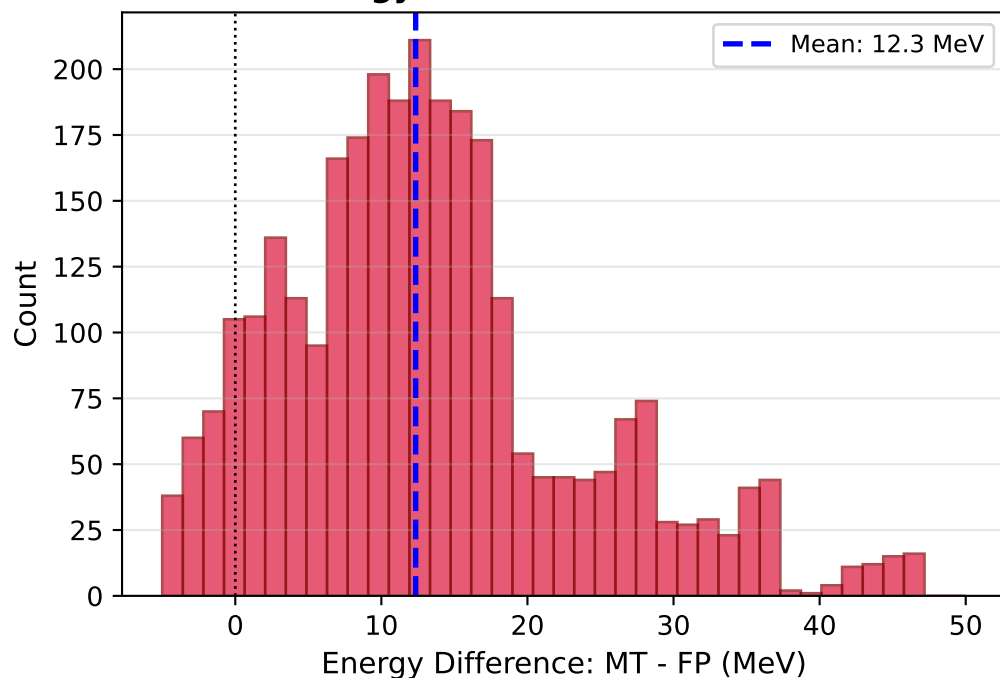

FP Distribution by Plane

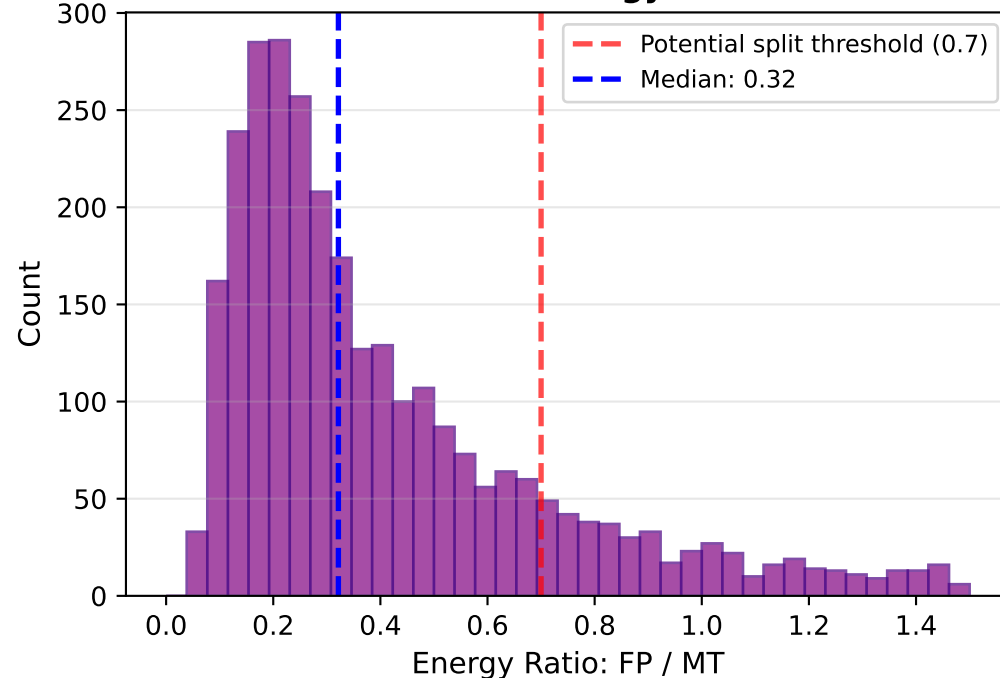

False Positive Analysis - Energy Difference (Split Track Hypothesis)

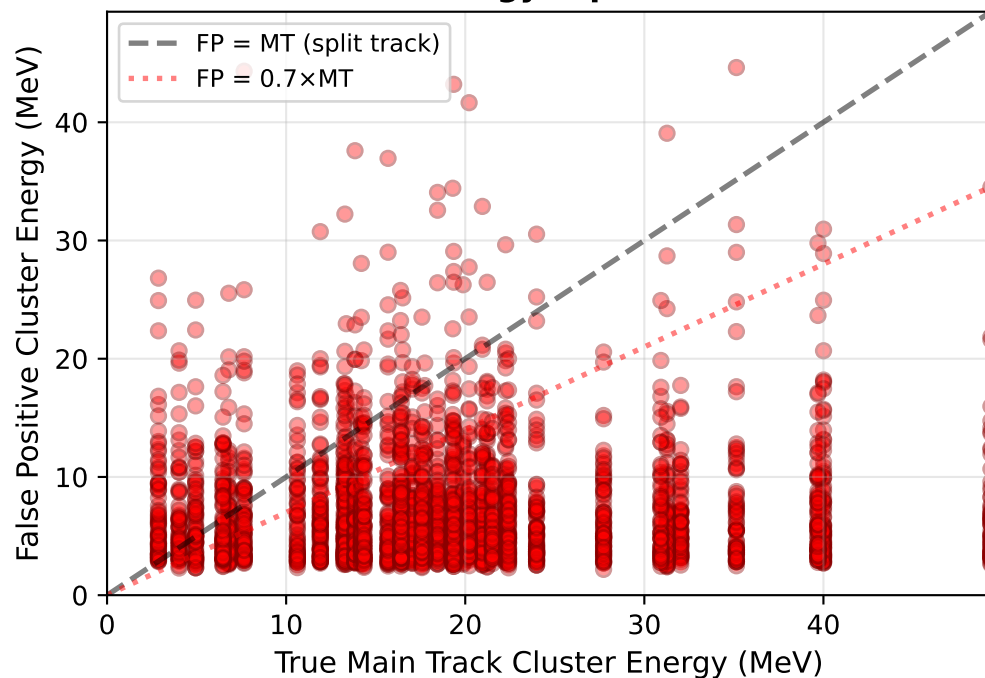

Energy Difference Distribution

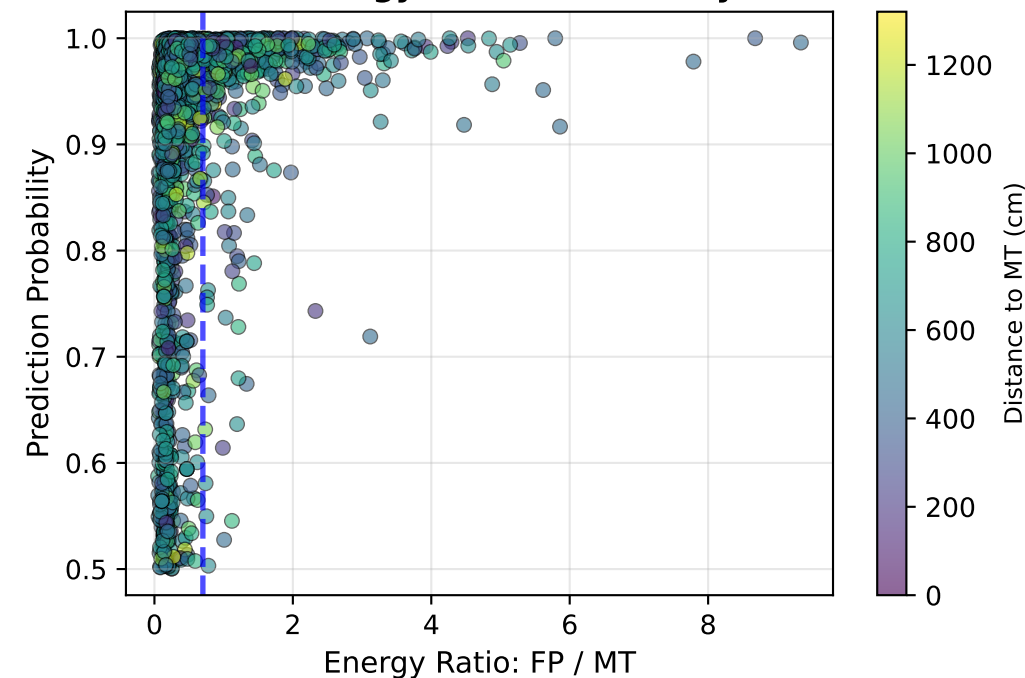

FP-to-MT Energy Ratio

FP vs MT Energy (Split Track Test)

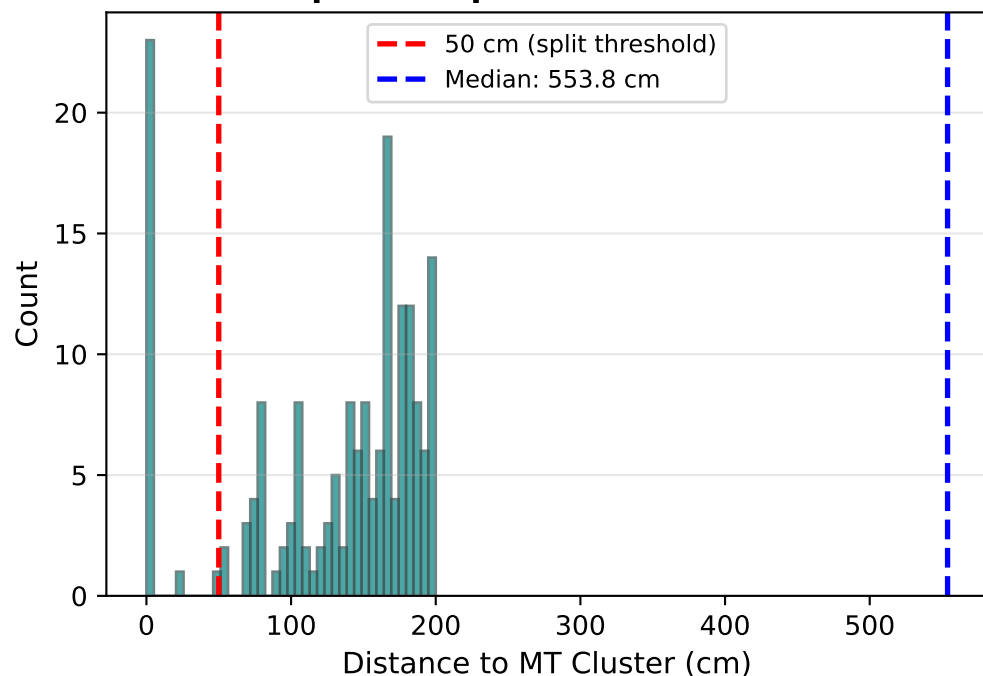

Prediction vs Energy Ratio (colored by distance)

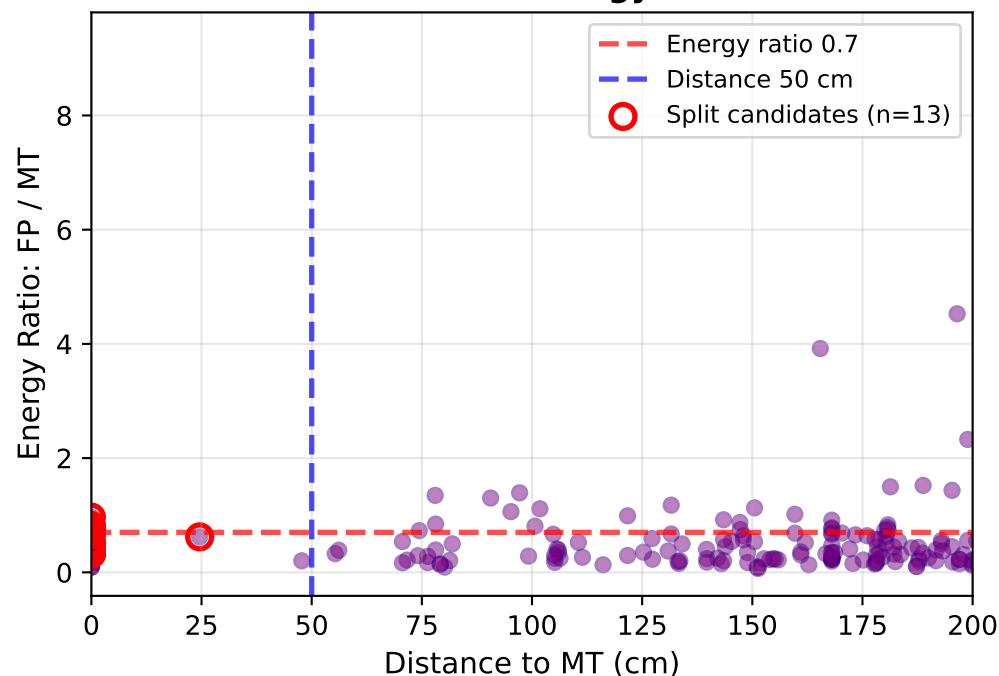

False Positive Analysis - Spatial Proximity (Split Track Test)

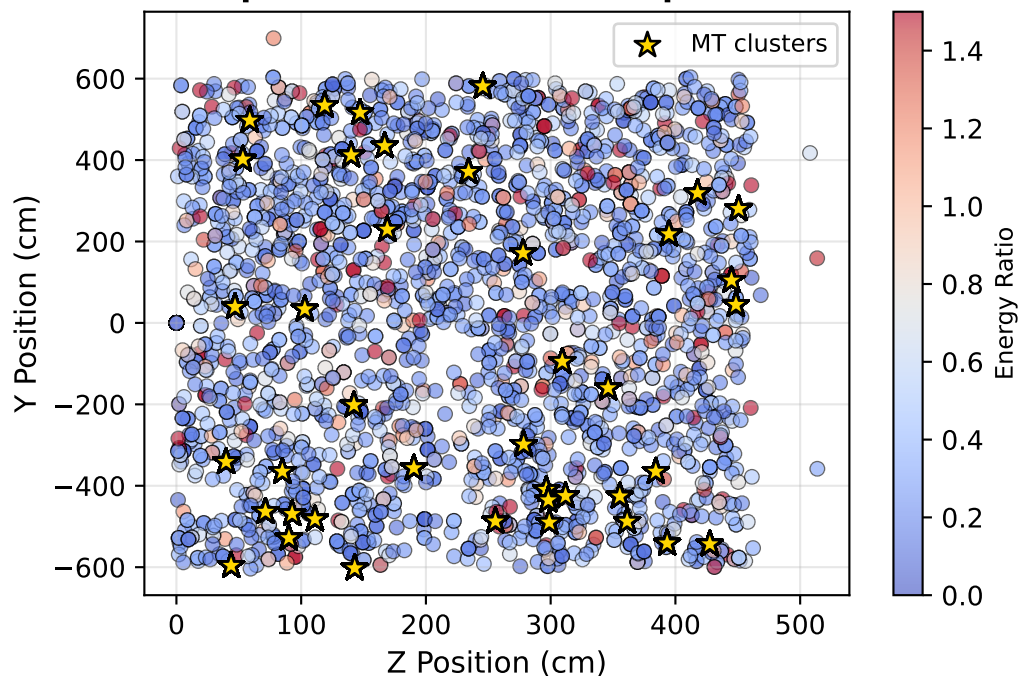

Spatial Separation: FP to MT

Distance vs Energy Ratio

Spatial Distribution (Y-Z plane)

Distance by Energy Category
